

May 25, 2012

**Data Storage Corporation is proud to announce that 808 Business Solutions is now a Preferred Partner offering DSC's Core products and services.**

Through a special arrangement with **808 Business Solutions**, you can now receive professional off-site data backup and recovery service through Data Storage Corporation at reduced rates.

**Complete Disaster Recovery for Your Business**

All organizations today are in need or may have compliance requirements for a disaster recovery and business continuity solution and plan. Data Storage is your answer for data protection, disaster recovery and availability, high availability and managed hosting environments (both physical and virtual).

**Our Dedication**

When selecting Data Storage, you become part of our vast family of customers who receive our full commitment to complete data protection. We become part of your organization by using a consultative approach to best fit the needs and requirements of your business. We strive on only providing the services you need and nothing more. This allows our SAAS based services to be cost-effective and custom tailored for a perfect fit solution. Our engineers and support representatives are available 24/7 to assist with any customer need, no matter how big or small.
